Our Speciality Ingredients Range include:

- Carotenoids
- Chondroitin and Glucosamine
- Coenzyme Q10
- Seaweed
- Marine Derived Ingredients
- Phosphatidyl Serine
- Plant Extracts, including Organic
- Vitamins, including from plant source and more.

We proudly represent the following Worldwide Brands:

Bacognize® extract is a natural standardized formula derived from *Bacopa monnieri*. Clinical research indicates that Bacognize® may offer benefits for cognitive health, memory, focus, attention, mood, and stress.

Disolvits is a finished product solution, which optimizes the delivery of commonly lipophilic active ingredients by enhancing their solubility and absorption.

Ester-C® is a unique and patented form of Calcium Ascorbate-Threonate with the main clinically proven benefits of quick absorption and 24-hour retention in the immune system.

EpiCor® is a clinically researched whole food fermentate from *Saccharomyces cerevisiae* shown to support the immune system for better overall health.

Glycomega™ is Greenshell™ mussel powder sourced from the clean waters of New Zealand. Glycomega™ provides a rich source of all major classes of glycosaminoglycan's (GAGs) which are principal components of cartilage and the synovial fluid found in joints.

Golden Omega Fish Oils are high quality Omega3 concentrates up to 700 mg/g EPA and DHA combined, obtained from sustainable sources in South America.

GOtab is a pure, high quality Golden Omega™ fish oil concentrate, optimized by Omegatri™ technology into a direct compressible powder for tablets. GOtab has proven fast bioavailability, with no reflux or fishy aftertaste and allows a combination with a wide range of ingredients.

HAPLEX®Plus

HAPLEX®Plus is a high purity, scientifically proven, food grade Sodium Hyaluronate. Clinical research on HAPLEX®Plus shows improvements in skin elasticity, degenerative osteoarthritis and osteoporosis.

Longvida® contains the natural antioxidant curcumin, optimised for maximum bioavailability into blood and target tissues. It supplies significant levels of free (not glucuronidated or inactivated) curcumin. Brain, Vascular, Exercise Recovery and Inflammation research.

Naticol® is mainly type I fish collagen peptides, including dipeptides and tripeptides. It is produced from high quality raw materials (fish skins) and by specific enzymatic hydrolysis.

From the heart of Sardinia, traditional botanical extracts from local producers, with full traceability. Some of the Nating botanicals are manufactured using spelt and buckwheat as a carrier. This results in high quality extracts from geographical provenance, enriched with fiber (spelt line) or gluten-free (buckwheat line), among other interesting health benefits.

OptMSM® is a scientifically proven, branded form of MSM precisely manufactured in the U.S. in a single-purpose production facility, through a multi-stage distillation process.

Pomella® extract is a patented, clinically researched pomegranate extract standardised to punicalagins along with the natural spectrum of pomegranate fruit polyphenols.

Natural, organic certified seaweed, sourced and manufactured to sustainable and high quality standards in pristine Scottish waters.

High quality green powders, carefully grown and processed using special harvesting techniques, low temperature dehydration and milling processes to ensure their nutrient-dense profile, deep green colour and freshness.

VitaFiber™ acts as a dietary fibre and a low calorie sweetener. It is an effective way to add fibre and reduce sugar in formulations.

Proprietary WokVel® extract is derived from *Boswellia serrata* and standardized to boswellic acids to achieve efficacious levels of keto-boswellic acid. It is a natural, clinically backed botanical ingredient that is known to support joint health by targeting the 5-lipoxygenase pathway.

XanMax® is a unique combination of free lutein with varying levels of zeaxanthin, manufactured from carefully selected marigold plants.

And other selected trademarked ingredients.

Our Dedicated Services to Customers

- We are a “solutions provider” working with an approved supplier network and global resources to deliver expert knowledge and quality solutions that meet European Regulations and our customers’ specific requirements.
- We aim to provide excellent technical support with our in-house quality system “Seal of Approval Standards and Procedures”.
- Our sales and product specialist teams have a deep knowledge and expertise on both ingredients and industry. They are fully supported by a brand management & marketing team, responsible for ensuring we efficiently utilise and share with our customers all the latest research, product news and updates.
- Furthermore we can work with our customers’ purchasing departments, marketing, sales and R&D teams to develop formulations that can suit their needs.
