

Our green superfood is a natural, plant-based, organic certified, proprietary mix of various blends containing greens, fruit and berries, various vegetables and plant enzymes, supporting immunity, energy, digestion, antioxidant support, overall health and more.

PRODUCT PROFILE SHEET

Superfood powders are a powdered food blend that consist of vegetables and fruits, that overall create a nutrient dense, **high antioxidant** rich food product that aims to **support optimum health**. Because of their highly concentrated nutrient profile, superfood blends are believed to support the **immune system**, **boost energy** and promote **healthy digestion**. Although they will never replace a diet rich in fresh fruits and vegetables, green superfood powders do make a good option for people on the go.

Having a good greens superfood blend on hand may be useful when traveling or when it is difficult to find fresh products. It is an easy and fast way to get fruits and greens and can be a good way to integrate a healthy diet.
