FUELING BRAIN AND BODY
THE PUREWAY® CREATINE ADVANTAGE

PUREWAY®
Creatine
NOT JUST FOR
GYM RATS.

THE PUREWAY® ADVANTAGE

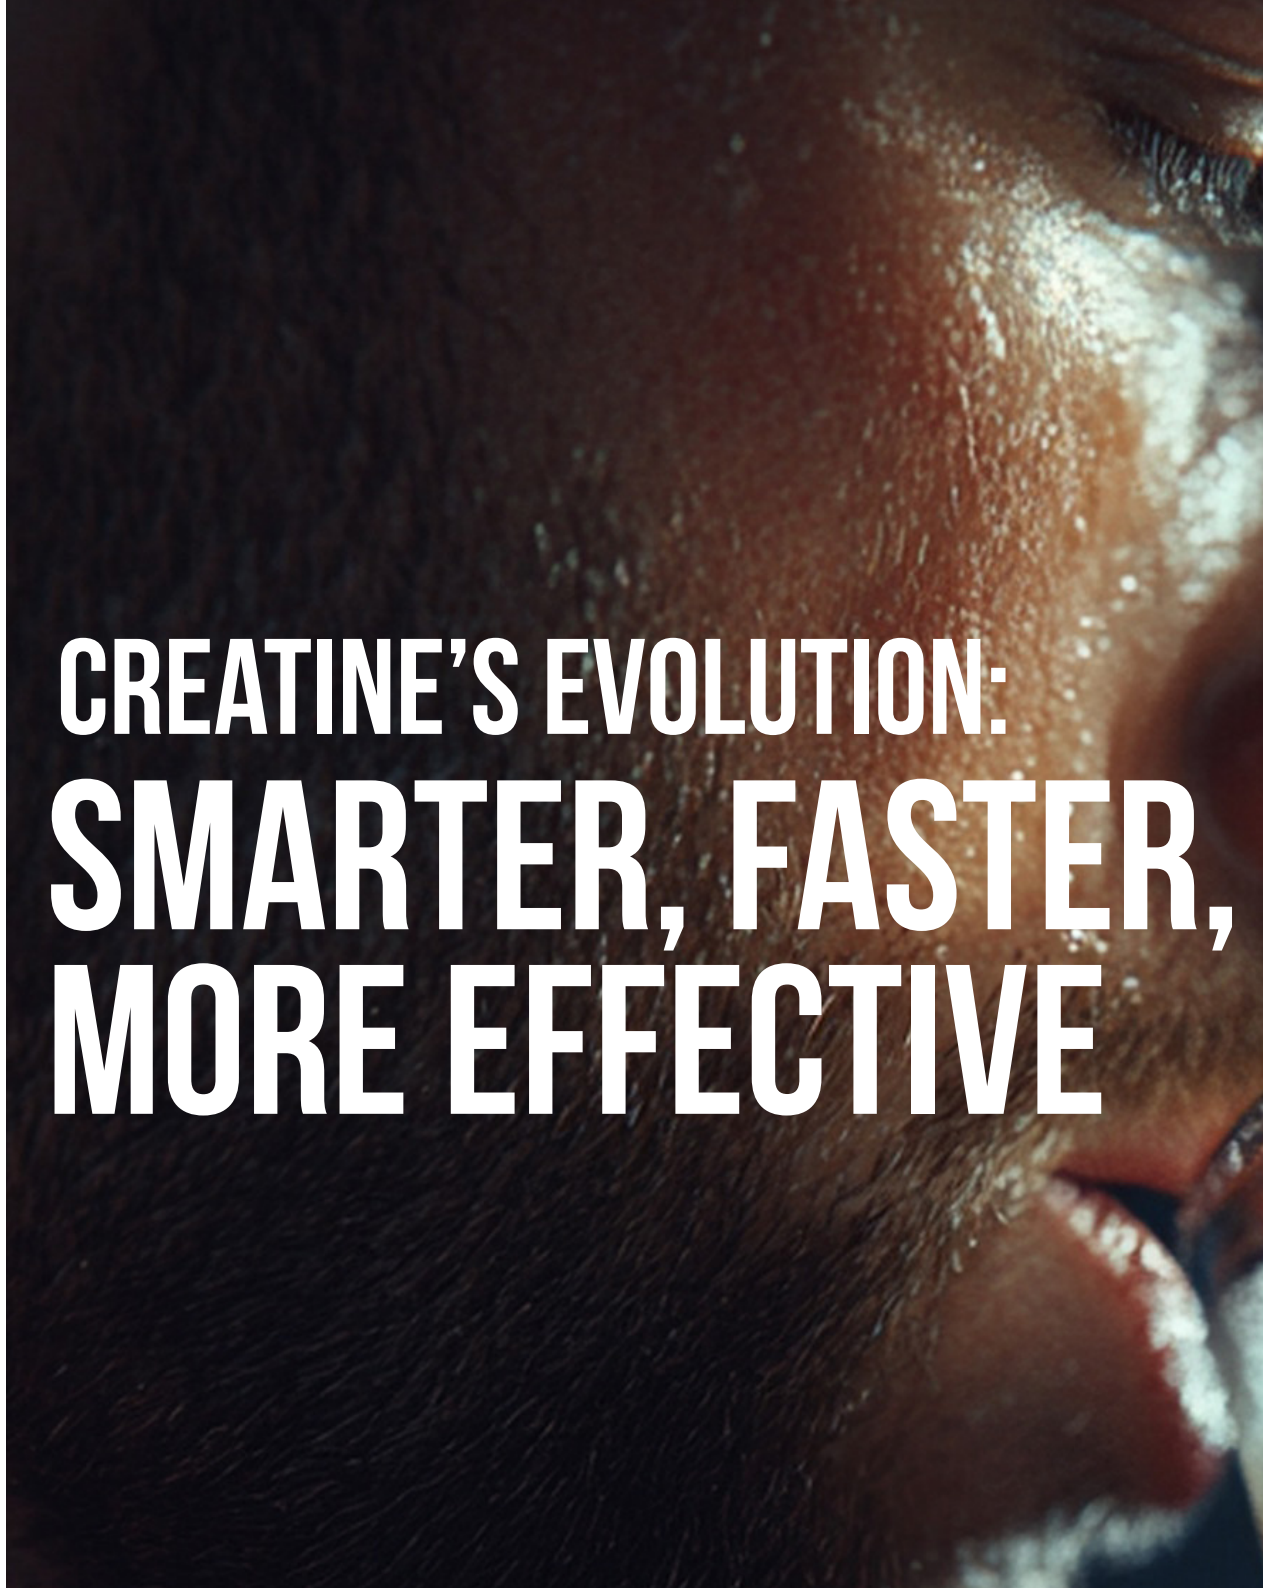

Creatine: It's one of the most researched and respected supplements in human performance. But for years, it's been stuck in the same old formula—until now.

Here's the deal: Creatine isn't just for gym rats chasing gains. It's one of the most fundamental energy molecules your body and brain rely on.

And now, with our latest patented LiposoMax™ Technology, we've eliminated absorption barriers, and supercharged bioavailability.

TRADITIONAL CREATINE?

It works—but it's slow, inefficient, and often requires high doses to compensate for poor absorption.

LIPOSOMAL DELIVERY = NEXT-LEVEL ABSORPTION

Think of liposomes as microscopic delivery drones—tiny, phospholipid bubbles that encapsulate creatine and shuttle it directly to your cells without interference from digestion, enzymes, or degradation.

THIS MEANS:

LiposoMax™ takes liposomal technology to a new level of effectiveness, with a unique, patented combination of phospholipids and fatty acid metabolites for optimal results.

PUREWAY® CREATINE
CHANGES THE GAME.

CREATINE FOR THE MIND:

FOCUSED THINKERS ARE TAKING NOTICE

PUREWAY® Creatine

We get it—most people hear “creatine” and think muscles, barbells, and protein shakes. But here’s a thought: what if I told you that some of the sharpest minds in science, business, and academia are now supplementing with creatine—not for their biceps, but for their brains?

PUREWAY® CREATINE

CHANGES THE GAME.

Creatine is no longer just for the gym. It’s for high performers, deep thinkers, and active agers who want to stay sharp, stay strong, and stay ahead.

PUREWAY®
Creatine

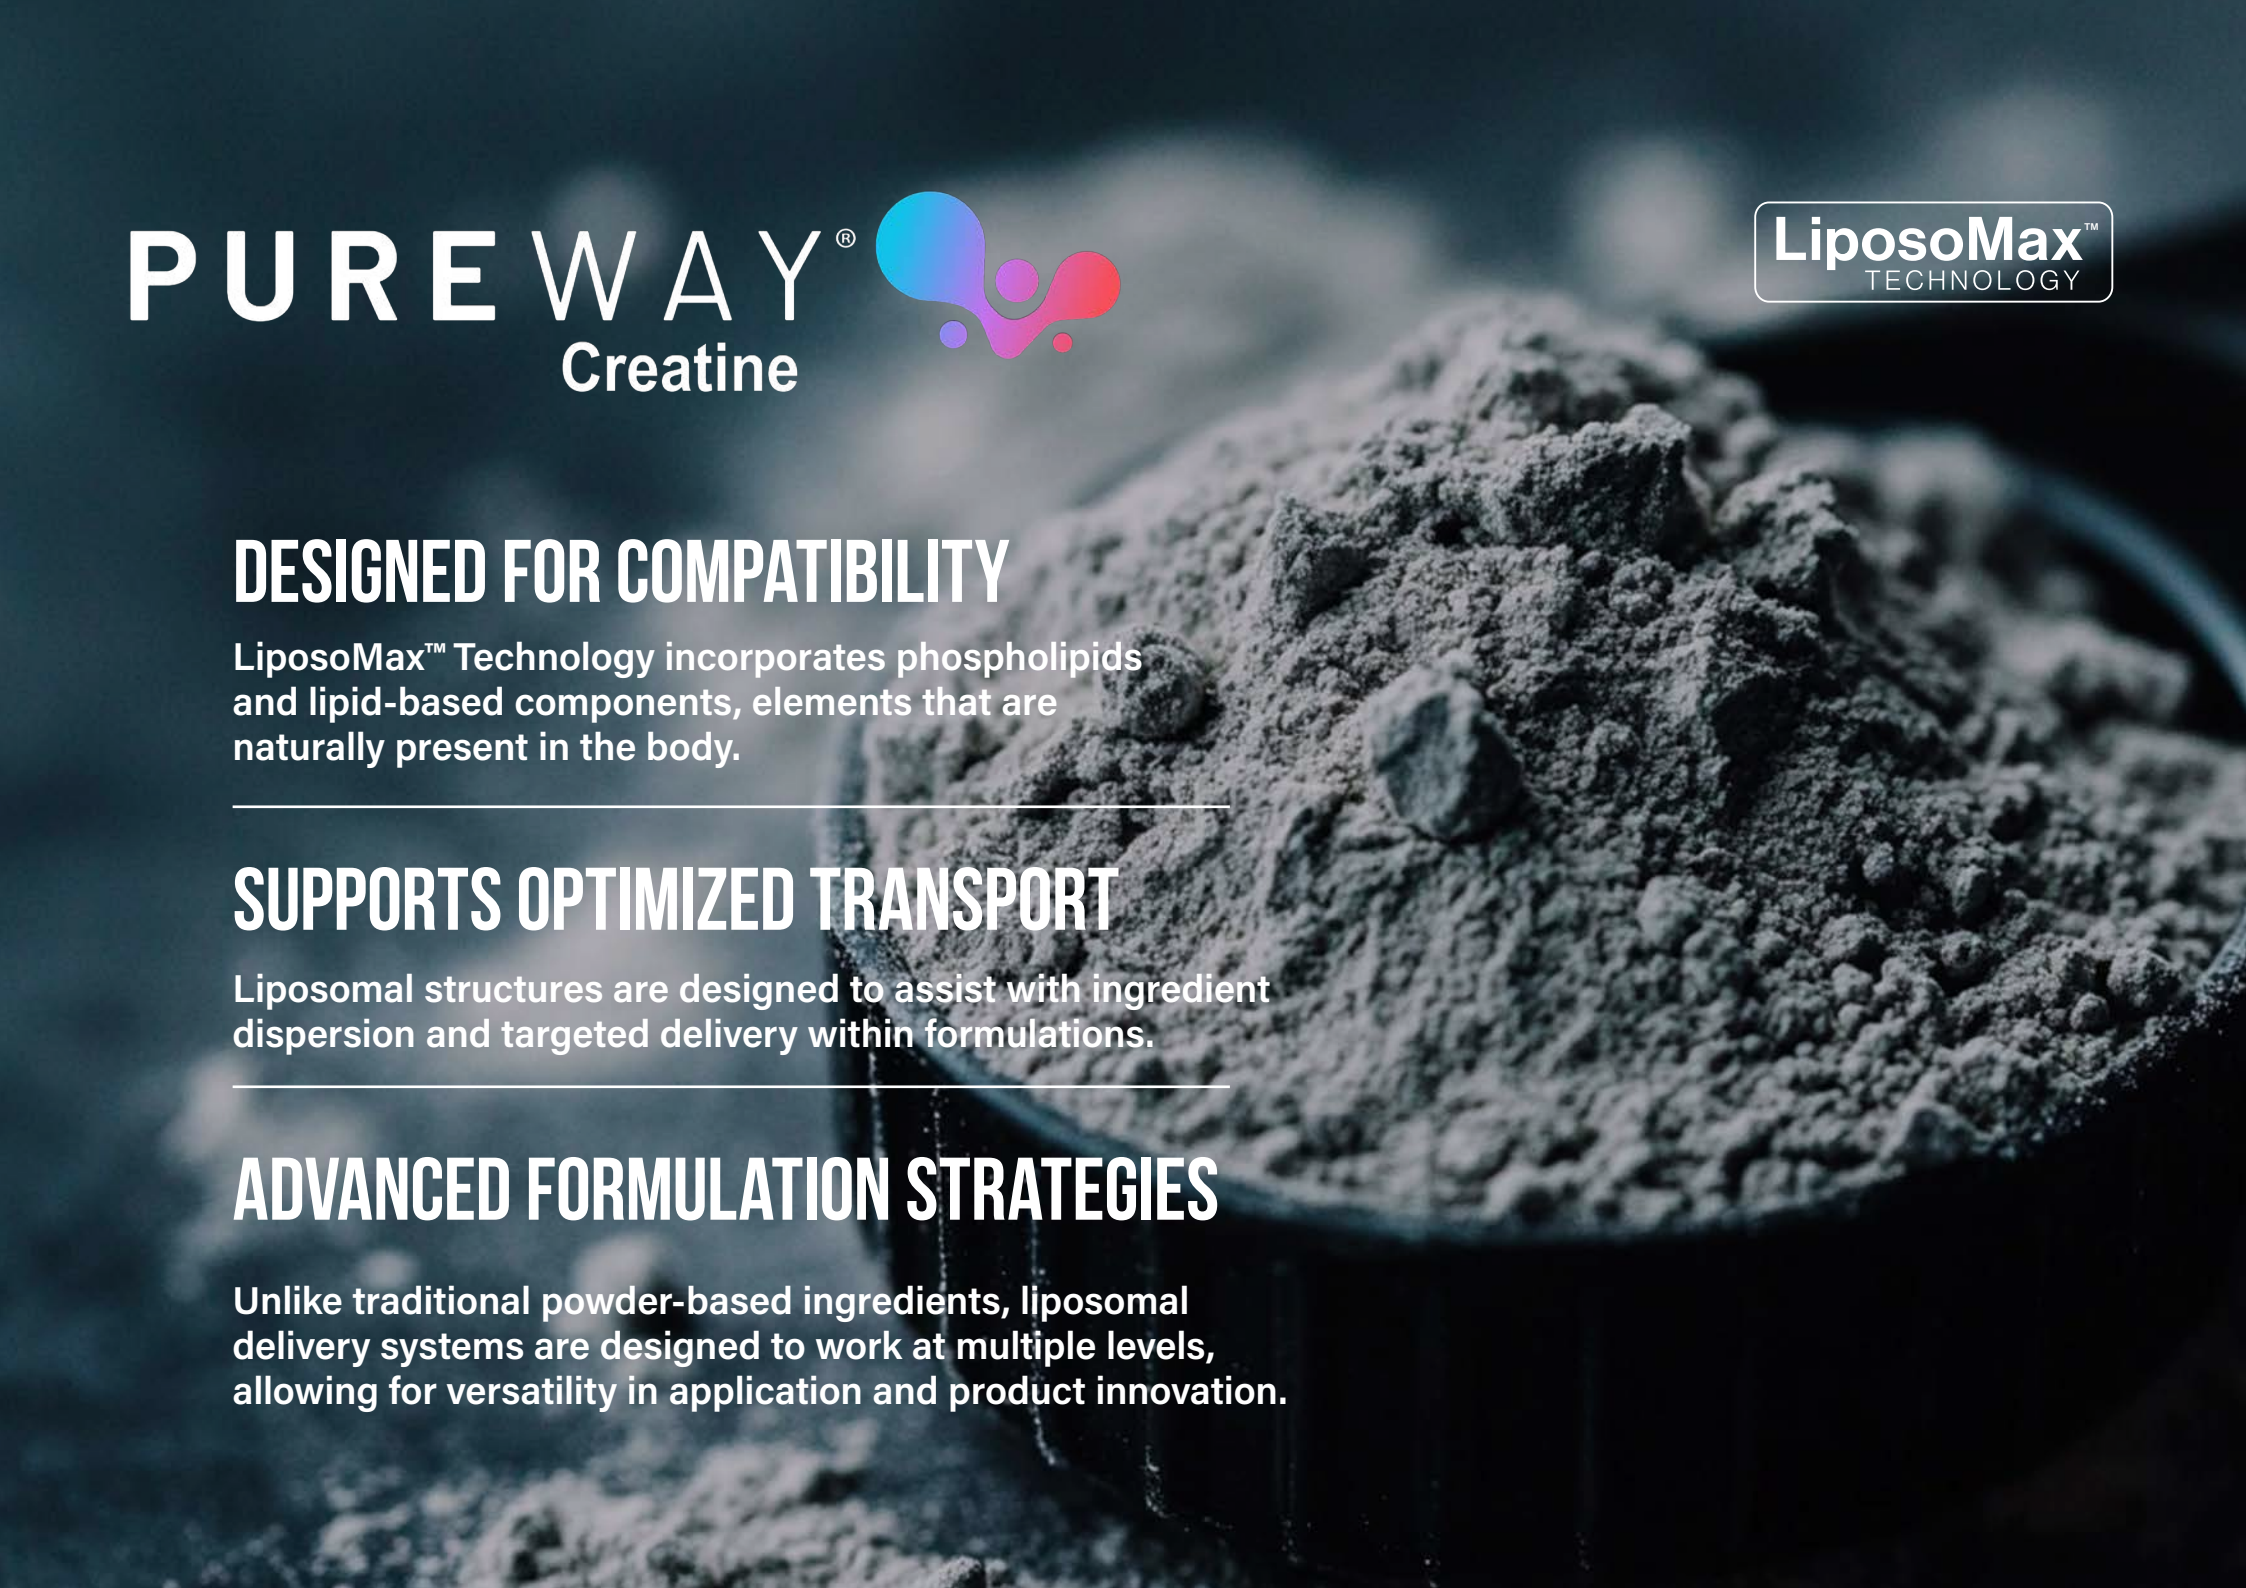

COGNITIVE CLARITY & FASTER THINKING

Creatine fuels ATP production, providing neurons with the energy they need to fire faster, process information more efficiently, and enhance recall.

YOUR BRAIN IS
A POWER-HUNGRY MACHINE,
BURNING THROUGH 20% OF YOUR BODY'S ENERGY EVERY SINGLE DAY.

WHY PUREWAY® CREATINE IS THE CHOICE

BECAUSE OUR SCIENCE.

PUREWAY®
Creatine
LiposoMax™
TECHNOLOGY
DESIGNED FOR COMPATIBILITY
LiposoMax™ Technology incorporates phospholipids and lipid-based components, elements that are naturally present in the body.
SUPPORTS OPTIMIZED TRANSPORT
Liposomal structures are designed to assist with ingredient dispersion and targeted delivery within formulations.
ADVANCED FORMULATION STRATEGIES
Unlike traditional powder-based ingredients, liposomal delivery systems are designed to work at multiple levels, allowing for versatility in application and product innovation.

LIPOSOMAX™ TECHNOLOGY
= EXTRA FUEL FOR CREATINE TRANSPORT

With standard creatine, a large portion never makes it to your cells.
Our LiposoMax™ Technology combined with our proprietary lipid metabolites increases uptake, distribution and release kinetics in cells by injecting the fat transport systems with extra fuel. Combining the biological absorption technology of liposomes along with the cellular kinetics of lipid metabolites creates an encapsulation delivery with enhanced bioactivity and efficacy.

THIS MEANS:

- **A FAMILIAR MAKEUP:** Fatty acids and phospholipids are naturally present in the cells of the human body. When a liposomal form enters the body, the body tends to recognize the fatty acid and the phospholipids parts.

- **FASTER MOVEMENT:** Since liposomal ingredients are more likely to be accepted by the body, they are also most likely to be spread quickly through the body.

- **SUPERIOR ABSORPTION:** While other nutraceutical ingredients are typically absorbed at intestinal levels, liposomal ingredients begin absorption in the stomach, allowing more beneficial nutrients to be absorbed at the cellular level.

READY TO POWER
YOUR BRAND'S
POTENTIAL?

THE FUTURE OF CREATINE IS HERE. NO GIMMICKS.

No fluff. Just cutting-edge science that works.

If you're serious about upgrading your brain, fueling your body, and supporting longevity, there's no better time to get on board.
